

Linguistic Data 2: Collection Modeling

Assignment 3

10 March 2020

Tasks for the assignment 3 are:

1. Map Anncorra tags with UD tags (mostly many to one mapping)
2. Convert 100 sentences which are annotated using Anncorra (assignment 2) to UD
3. Re-convert UD tags to Anncorra (mostly one to many mapping)
4. While converting UD tags to Anncorra:
 - Use linguistic cues such as suffixes, functional words, TAM, semantic information of words (animate, human, experiencers etc.) and etc.
 - Make sure your program works for all 200 sentences of Assignment 1 and Assignment 2

Deadline: 20th March, 2020
